

# Yohana Tesfaye

## Full-Stack Developer

Passionate programmer with a knack for problem-solving and a relentless drive for innovation. With a solid foundation in multiple programming languages and a keen eye for detail, I thrive in dynamic environments where I can contribute my expertise to create efficient, elegant solutions. Crafting clean code and fostering collaboration within diverse teams, I bring creativity and dedication to every project I undertake.

## WORK EXPERIENCE

### Web Development Code Alpha

03/2024 - 06/2024

Remote

provides practical experience with 6+ projects alongside the training program. Projects challenge students to apply learned skills in real-world situations. The capstone project, integrated into the final week of the internship, requires students to apply all learned skills and knowledge.

### Front-End Development Federal Prison

Achievements/Tasks

- Designed and implemented responsive, secure user interfaces for a federal prison registration system, ensuring adherence to strict government regulations and seamless integration with backend systems. Collaborated with cross-functional teams to translate design requirements into efficient front-end solutions, optimizing user experience.

## EDUCATION
